

WHAT IS CLAIMED IS:

1. A cellular phone equipped with crime or disaster prevention means, comprising an extra push button for telephoning police, fire stations or security companies at a predetermined position on its body, the extra push button having a safety lock such as a cover for preventing inadvertent depression; and a GPS function installed therein for informing the police, fire stations or security companies of instantaneous location of telephoner.

2. A cellular phone according to claim 1, wherein it further comprises a sounding function responsive to depression of the extra push button for producing a patrol, an ambulance siren or an utterance calling for help.

3. A cellular phone according to claim 1, wherein it further comprises a dog-sensitive ultrasonic wave transmitter equipped therewith.

4. A cellular phone according to claim 1, wherein it further comprises a red light flickering means equipped therewith.

5. A cellular phone according to claim 1, wherein it further comprises an automatic recording function for recording on-the-spot suffering situation or sufferings in the form of sound.

6. A cellular phone according to claim 1, wherein it further comprises a transmitter section for automatically informing police or fire stations of the on-the-spot suffering situation or sufferings.

7. A cellular phone according to any of claims 1, wherein it further comprises a separate transmitter as attachment, the separate transmitter being designed so as to facilitate carrying the same with his or her body all the time, and so as to send signals to the cellular phone to make the extra push button work.

8. A cellular phone according to claim 1, wherein it further comprises a means for telephoning selected rescue centers in addition to the police, fire stations or
